

To all patients, prospective patients, friends and followers:

In the wake of the increasing concerns of the Covid-19 virus, Dr Paulson and staff wanted to provide reassurance to everyone visiting our practice of the precautions we have been taking, and will continue to take to ensure the safety and well-being of everyone.

All staff and providers in our office have been continuously maintaining the highest standards of OSHA compliance, with annual updates being performed to remain up to date on infection control protocol. This includes thorough disinfection of treatment rooms and equipment between each and every patient and maintaining proper sterilization procedures for all dental instruments, with weekly testing of sterilization equipment.

We will ensure that hand sanitizer will be available to all visitors at the front desk and in the treatment rooms, like we have been providing for quite a long time. We are performing disinfection of the reception area, commonly touched objects (light switches and restroom fixtures) at increased intervals to ensure safety and eliminate with spread of germs with greater efficiency

If any of our patients are under the weather just prior to your scheduled appointment, please do not hesitate to reach out to us to reschedule your visit to a later date. We understand that practicing prevention is the best course of action to minimize the likelihood of spreading infection. It is important to continue practicing good personal hygiene, which includes covering your face during coughing or sneezing, and thorough hand washing/sanitizer at frequent intervals.

We thank you all for your patience and understanding while we continue to provide the highest quality dental services that you come to expect from us, even during this concerning time.

Yours in dental excellence,

Dr. Chris and staff,
Arbor Dental Associates
